MODEL 330

THE WORLD'S FIRST FULLY
AUTOMATIC VOICE OPERATED
PORTABLE TAPE RECORDER

SOUND STARTS IT!

SOUND STOPS IT!

The new Concord Model 330 represents a completely new concept in tape recording. It is a tape recorder that can be left unattended for long periods of time and it will function completely automatically. It is not just a portable tape recorder. Its automatic recording versatility represents a significant advance in automatic tape recorder design.

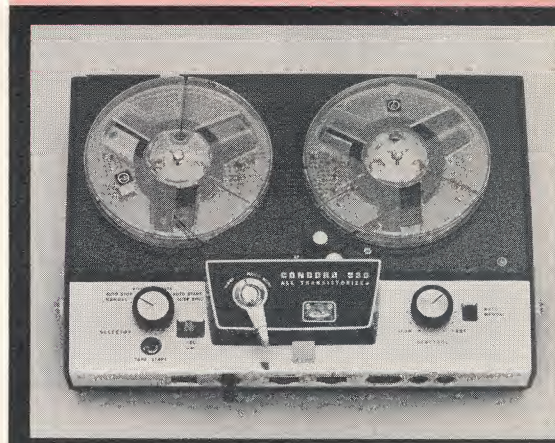

OUTSTANDING AUTOMATIC FEATURES:

- **AUTOMATIC Voice Operation** — The 330 starts recording whenever a sound is present at the sensitive mike. It stops when the sound source stops.
- **AUTOMATIC Start** — Recording is started by external sound. Continues to operate until recorder is manually turned off.
- **AUTOMATIC Stop** — Tape stops at designated point or points throughout the reel by use of special sensing tape.
- **AUTOMATIC Slide advance** — Automatically advances slides with commentary on tape recorder, offering unattended slide projector operation.
- **AUTOMATIC Movie Sync** — Synchronize sound with any motion picture projector by using exclusive Concord Synctrol, record background music, sound effects or narration.
- **AUTOMATIC Threading** — New Concord reel design allows automatic tape threading.

OTHER OUTSTANDING FEATURES

- Fully Transistorized
- Portable battery-operation or AC (optional) operation
- Dual speeds • High Fidelity Sound
- Up to 6 hours playing time • Tone Control
- Automatic Dictation • Transcription with Foot Control (optional)
- 5" reels • Remote Control Microphone
- VU Meter and Battery Condition Indicator.

The Concord Model 330 automatically records voice or music, giving unequaled sound quality. It is the world's first completely automatic, voice operated portable tape recorder!
